

Renaissance teaches us the power of looking to the past for insights and inspiration in dealing with today's issues. By looking to the past for guidance today, not only can we find potential sources of answers, but also, ways to reach the future..

# *Revival*

*Trailer*

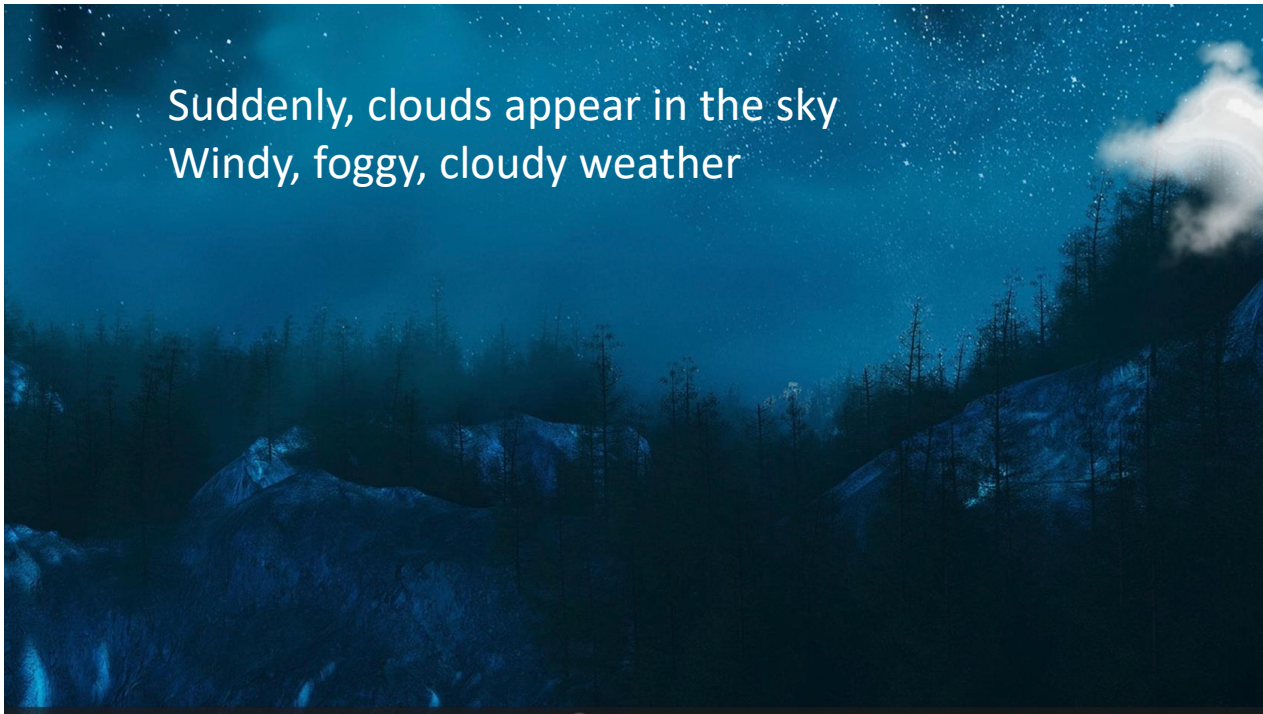

Beautiful evening landscape  
quiet calm atmosphere

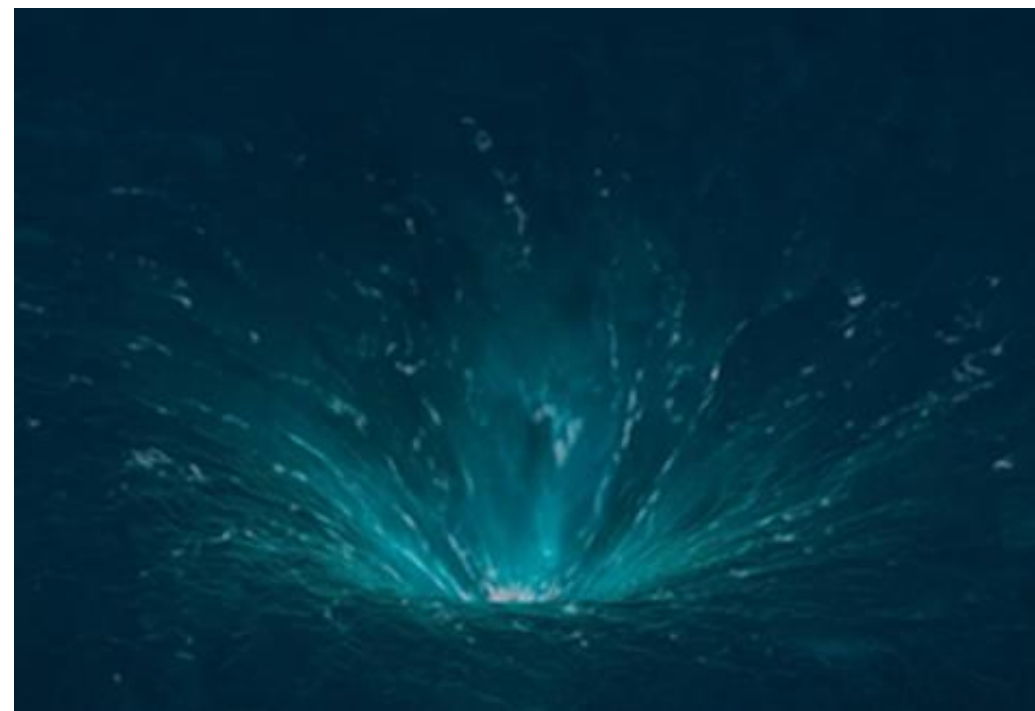

Suddenly, clouds appear in the sky  
Windy, foggy, cloudy weather

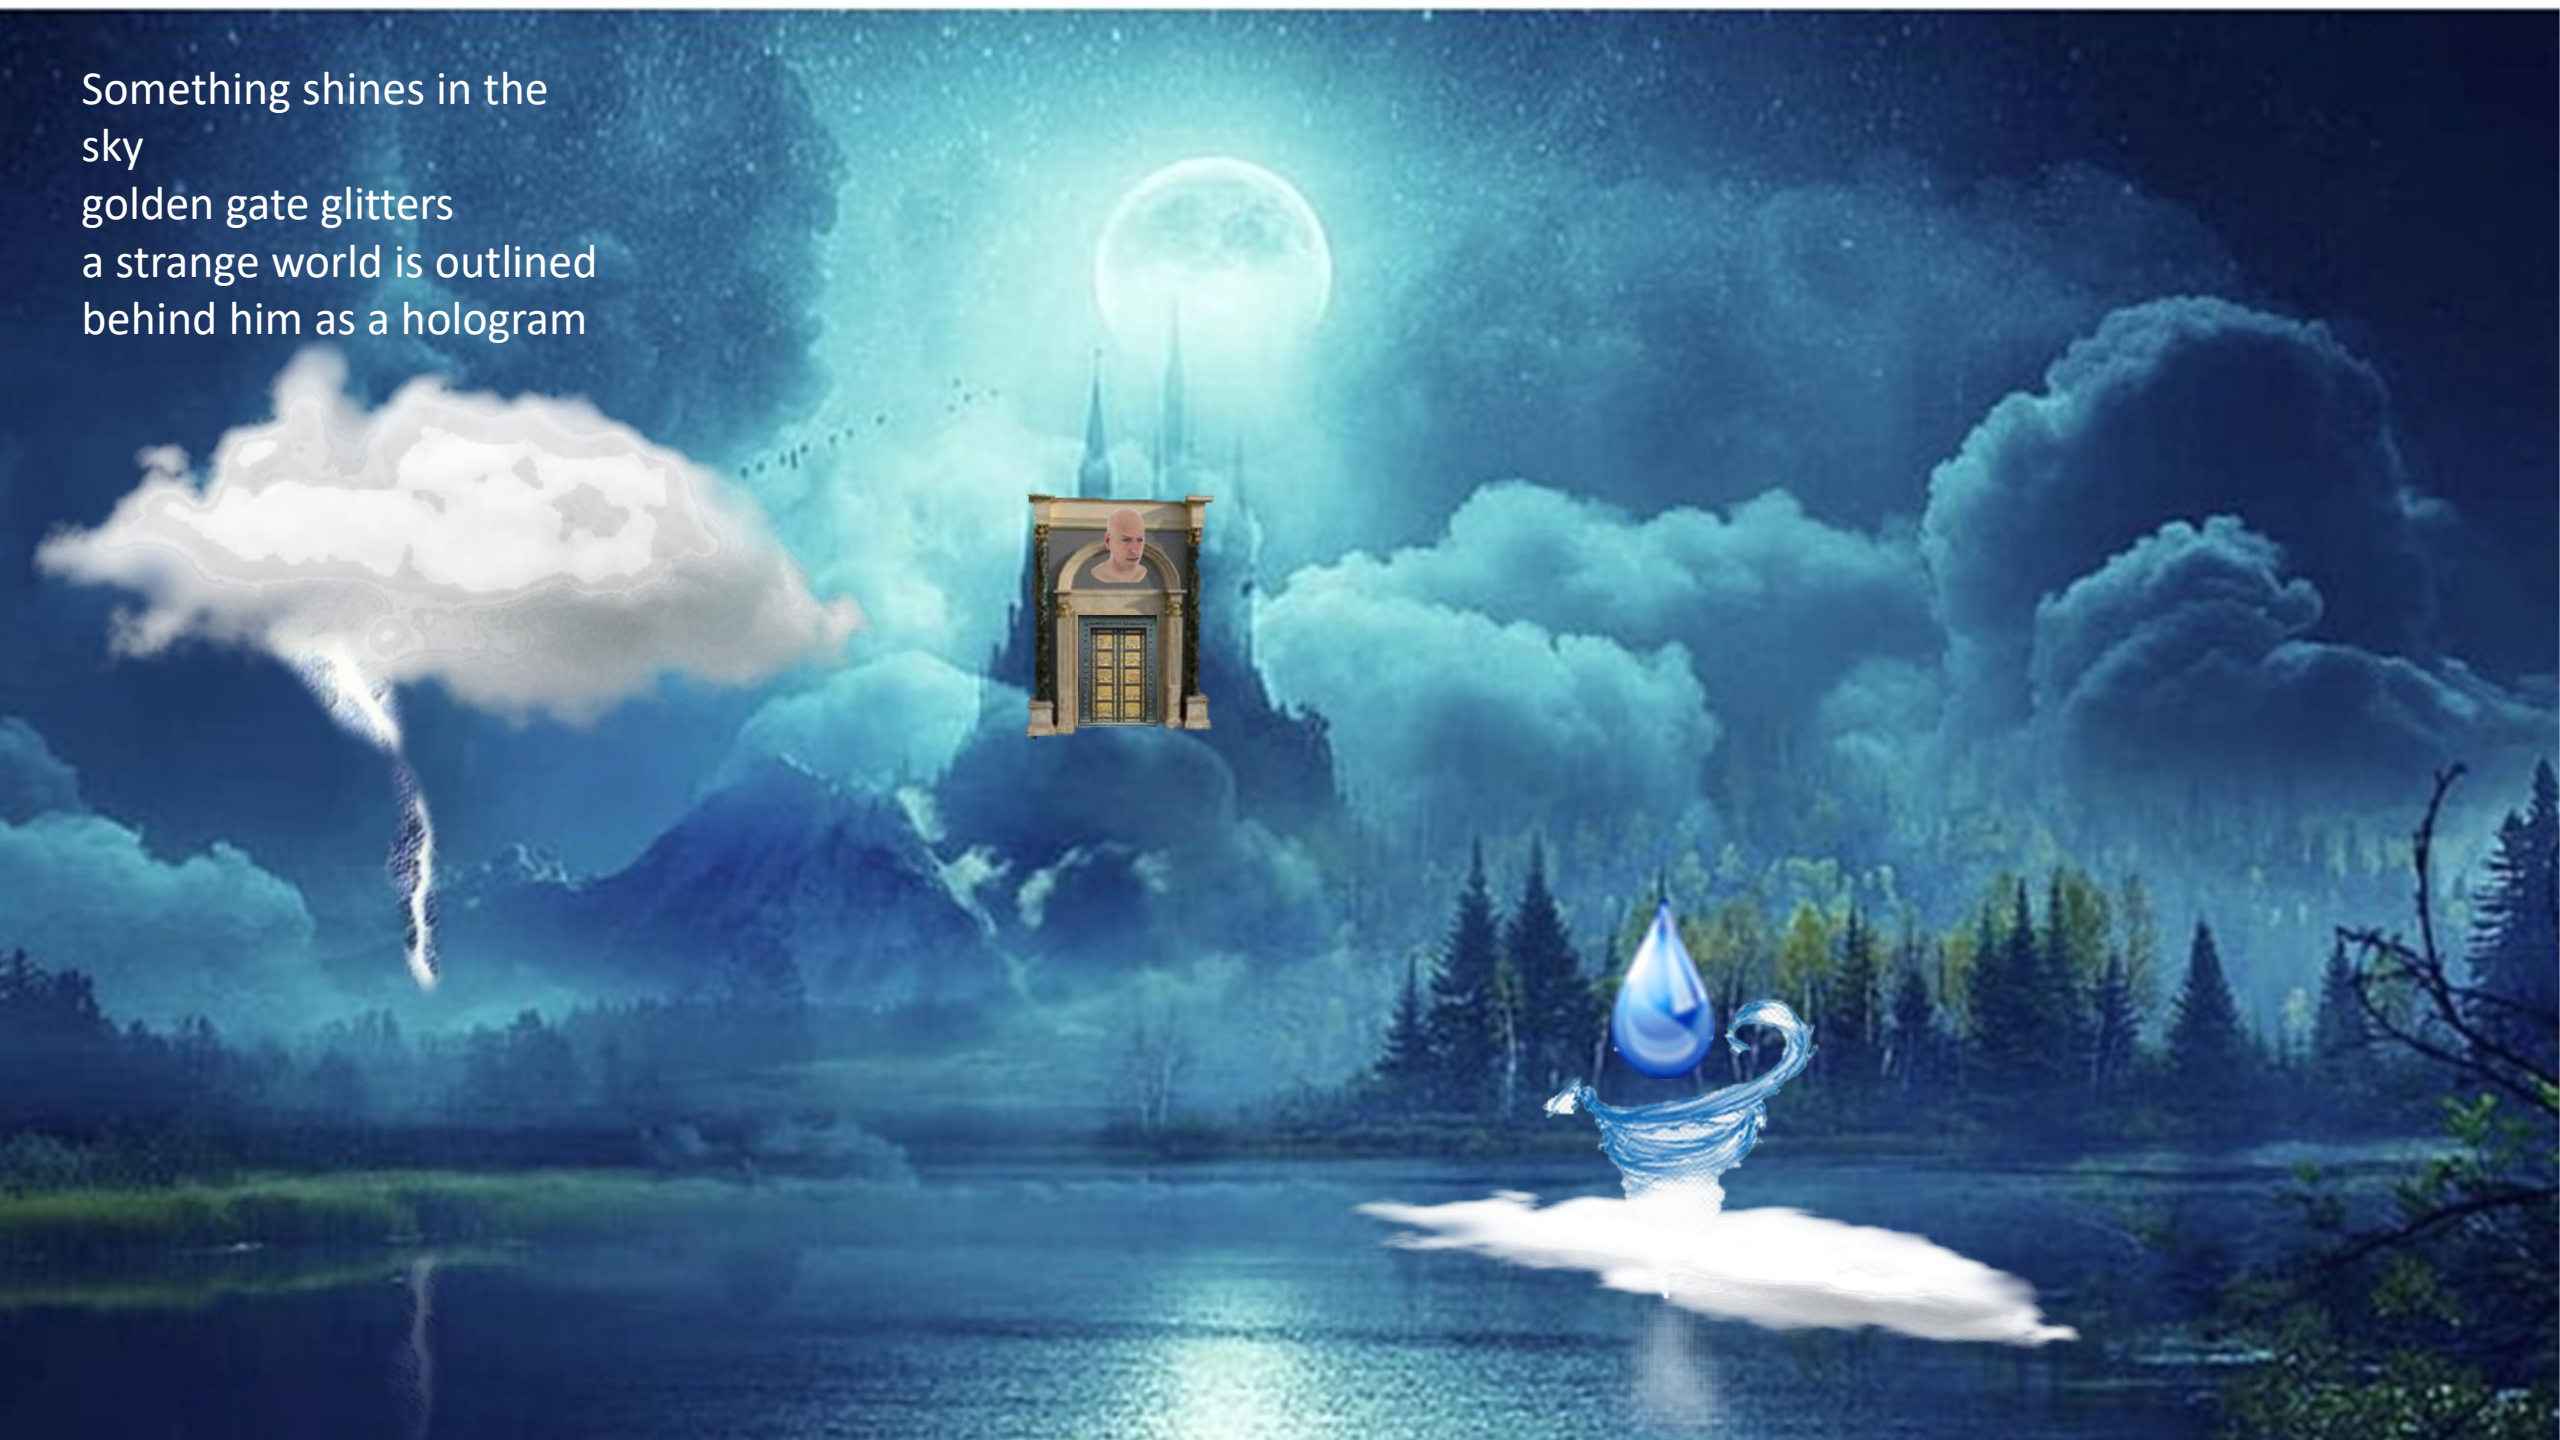

Whirlwind, windstorm in the water  
a raindrop/teardrop starts a water vortex

Something shines in the  
sky  
golden gate glitters  
a strange world is outlined  
behind him as a hologram

An old camera emerges from  
the whirlpool and glints in the  
water.

The girl steps out of the shadows  
the light flows into the water

The olive tree, which grows neither in the east nor in the west, its berries do not need the power of fire, yet it shines and fills everything with light, but the symbol of its light is Ka, which also symbolizes the spirit of death, the principle of the spirit. Only one who possesses the Ka can contact the future; can reach the future.

**She makes waves on the rough sea and follows the  
light across the water**

footprints on the water

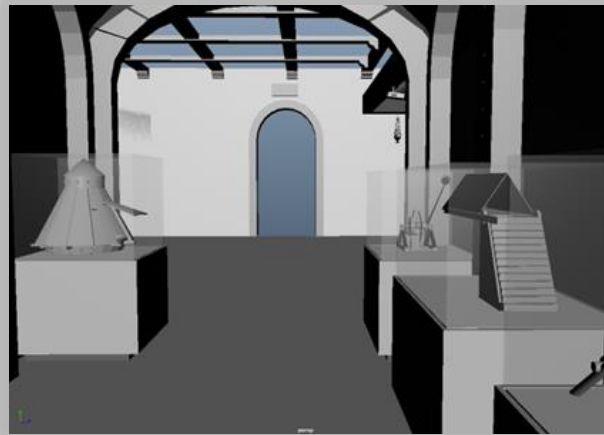

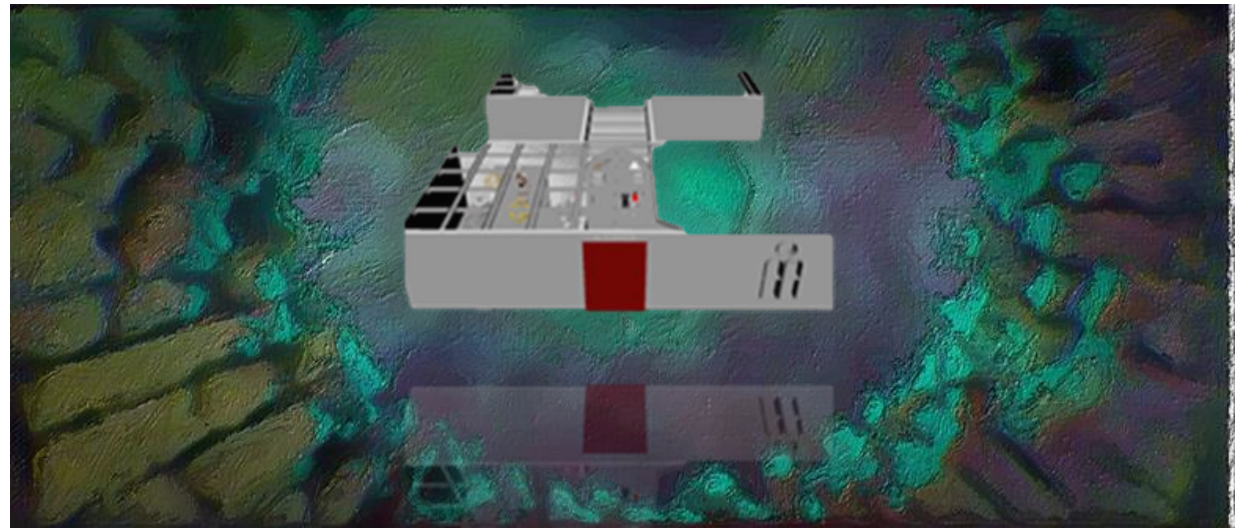

She follows the light

# END

**The life that is closed hides  
the boundless treasure.**

- We follow a young woman's mountain journey, where reality meets emotion. Cinema's visual magic, aided by VFX and animation, breathes life into emotional moments. Guided by light, she steps into the past, entering the world of Revival and Renaissance. This journey imparts a powerful lesson by looking to the past for guidance , not only we can find potential sources of answers, but also ways to reach the future.
